AUDITED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31<sup>ST</sup> DECEMBER, 2017

## 1. Introduction

The Board of Directors of Sanlam Kenya PLC ("Sanlam") is pleased to announce the Group's audited results for the year ended 31<sup>st</sup> December 2017.

## 2. Key Features

- Profit before tax at KShs. 247m (2016: KShs. 317m)
- Total assets up by 5% to KShs. 29.8b (2016: KShs. 28.4b)
- Group Embedded Value is at KShs. 4.4b (2016: KShs. 4.7b)
- Value of New Business is at KShs. 45m (2016: KShs. -88m)
- General Insurance Written Premium is at KShs. 2.15b (2016: KShs. 1b)
- General business underwriting profit is at KShs. 40m (2016: KShs. -38m)

## 3. Accounting Policies

The Group's accounting policies comply with International Financial Reporting Standards (IFRS) as well as the Kenyan Companies Act, 2015. These policies are consistent with those applied in prior years.

## 4. The Economic Environment

According to the National Treasury, Kenya's economy remained resilient in 2017 despite adverse weather conditions, a prolonged electioneering period as well as subdued credit growth to the private sector which combined to weaken growth in the first half of the year. Economic growth for 2017 is estimated at 4.8% from 5.8% in 2016. On the positive side, growth in 2017 was supported by the ongoing public infrastructure investments, improved weather towards end of 2017, recovery in the tourism sector and a stable macroeconomic environment.

Despite the slowed economic growth recorded in the year, the insurance industry recorded a 10.7% growth in premiums during the period to September 2017 compared to a growth of 7.2% in a similar period in 2016. The growth was largely driven by accelerated growth in the life insurance segment which grew 16.9% compared to the general insurance segment that grew by 7.2%. Overall premiums are however still largely skewed towards general insurance which accounted for 62.3% of the KShs. 160.6b of premiums collected as at the end of September 2017.

The Kenya shilling remained stable in the year which depreciated by 0.7% against the US dollar. Inflation was relatively high resulting from rising food prices but declined towards the end of the year to close at 4.5% as food inflation reduced. The Kenyan Capital Markets recorded strong growth despite the prolonged electioneering period. This is evidenced by positive returns on all asset classes with the NASI gaining 28.4% compared to (8.5%) in 2016 and the FTSE bond index gaining 16.5% from (0.2%) in 2016.

The insurance sector continues to be shaped by changes in the demographic profile of the population, macroeconomic conditions, industry competition and regulatory reforms. Market players are particularly keen on monitoring their balance sheets to ensure compliance with the new Risk Based Capital requirements which come into full effect in June 2020.

## 5. Financial Overview

The Group's profit before tax of KShs. 247m in the current year, decreased from KShs. 317m reported in December 2016. This is mainly attributable to decline in performance of the life insurance, investments and property businesses in 2017.

The Group results are analysed as follows;

	31 Dec 2017	31 Dec 2016
	KShs.' M	KShs.' M
Operating profit	82	549
Investment income on shareholders' assets	165	(232)
Profit before tax	247	317
Tax	(194)	(246)
<b>Net profit for the period</b>	<b>53</b>	<b>71</b>
Other comprehensive income	-	23
<b>Net profit and other comprehensive income</b>	<b>53</b>	<b>94</b>

### Comprehensive income attributable to:

Owners of the parent	31	106
Non-controlling interests	22	(12)

Included in the operating profit are the results of our life insurance, general insurance, investments, property and loans businesses. The general insurance and loan businesses exceeded the 2016 operating profit levels while the life insurance, investment management and property businesses performance declined. The general insurance business continues to show significant growth and returned to profitability in 2017.

**Life Insurance Business:** Gross written premium declined by 2% to KShs. 4.3b from KShs. 4.4b in 2016. Corporate business premium income grew by 28% while retail business premium income grew by 2% attributable to stabilizing distribution channels and marked improvement on our financial consultants' production.

**General Insurance Business:** The company returned an underwriting profit of KShs. 40m as gains from the business transformation program came through in 2017. Gross written premium grew by 115% from KShs. 1b to KShs. 2.15b buoyed by stronger engagement with our customers and business partners. Investment returns increased by 6,634% from KShs. 1m in 2016 to KShs. 61m in 2017. Prior year investment income was impacted negatively by realized losses on property disposals. Policyholder benefits and claims closed at KShs. 770m, an increase of 474% from KShs. 134m posted in 2016 in line with growth in gross written premiums. The general business is well on track to become a major player in the general insurance market in Kenya.

**Asset Management:** Fee income from our investment business decreased by 28% to KShs. 113m from KShs. 156m on account of lower outperformance fees in 2017 and slower AUM growth.

## 6. Dividends

The introduction of the new Risk Based Capital regime in 2020 will significantly increase the capital requirement for the Group's life and general insurance businesses. This is over and above the impact of the revised guidelines on valuations of technical provisions for the life business on the back of the high prescribed margins used for reserving. The Board of Directors will not be recommending the payment of a dividend for the year ended 2017 (2016: Nil) at the forthcoming Annual General Meeting scheduled for Thursday 10<sup>th</sup> May 2018.

## 7. Regulatory Developments

The main regulatory development in the insurance sector was the gazetting of The Statute Law (Miscellaneous amendments) Act 2017, postponing the effective date of complying with the new capital requirements to June 2020. The Group remains committed to ensuring full compliance with the regulations.

## 8. Changes of Directors

Wikus Olivier resigns from the Boards of Sanlam Kenya Plc and Sanlam Life Insurance Limited to take up other roles within the wider Sanlam Group. Mr Olivier was appointed a director on 16th May 2014 and also served as a member of the Audit Committee. The Board of Directors thanks Mr Olivier for his contribution to the growth of the business and wishes him the best in his future endeavours. Mugo Kibati resigned as the Sanlam Kenya Group CEO to pursue personal and professional interests. The Board remains grateful to Mr. Kibati for his dedicated service to Sanlam Kenya, having assumed the Group leadership role from February 2015.

## 9. Looking ahead

Building on the foundation already set to accelerate our corporate business growth and stabilize our retail business, the Board remains confident that further gains will be achieved this year. We have streamlined our processes significantly with a potential to realize key gains on customer experience and overall growth on our range of non-bank financial services.

The year 2018, will also see us moving to our new home at the Sanlam Tower, along Waiyaki Way, providing further benefits to our unified business strategy.

The financial statements presented are extracts from the books of Sanlam Kenya Plc for the year ended 31<sup>st</sup> December, 2017. The financial statements were audited by PricewaterhouseCoopers who expressed an unqualified audit opinion.

## GROUP EMBEDDED VALUE

The embedded value represents an estimate of the value of the Group. It excludes the value attributable to minority interests and goodwill attributable to future new business.

The embedded value comprises:

- The value of the shareholders' equity net of the cost of the Capital Adequacy Requirement (CAR); and
- The value of the in-force business.

The value of the in-force is the present value of future profits arising from business in force at the valuation date, discounted at the risk discount rate.
